GCC's Services:

Today's market trends demand services and solutions that deliver results and sustained success. GCC Technologies meets client needs by leveraging dedicated staff in the services listed below. Whether the need is acquisition support, administrative support, information technology support or case management/compliance reviews, GCC is here to streamline the process and produce the results needed to advance your organization's performance.

Acquisition support

GCC's acquisition experts support the entire lifecycle of the federal procurement process. Whether it's pre-award, post-award, contract closeout or records management, GCC delivers progress improvements that streamline and efficiently advance the overall methodology for federal clients. Leveraging proven abilities to conduct successful information technology procurements, GCC has performed these capabilities for specific clients such as DHS TSA, the Coast Guard and FTC.

Our Program Management Support includes enterprise strategic acquisition planning, requirements definition and analysis, and market research and analysis and have performed these services for the Department of Education Office of Federal Student Aid.

Administrative support

GCC provides administrative support for various federal clients such as Department of Education, Veteran's Administration and Small Business Administration. GCC's administrative support services encompass the full realm of the day to day operational requirements. From correspondence handling to classified material processing, to office automation including, report creation, publications management, travel orders and personnel security processing, GCC's administrative support personnel are fully capable of meeting client and contractual needs.

GCC's capabilities in regards to administrative support have expanded to the areas of human resources and security access control including, badging, credentialing, travel accounting and Defense Travel Support. GCC's security and access control clients include the U.S. Navy and Social Security Administration.

Information technology support services

In regards to the ever changing technological industry, GCC has expanded and is fully positioned to encompass all realms of information technology and drive the support services needed to streamline any process. GCC's subject matter experts have performed detailed analysis of enterprise/legacy systems, IT Strategy and Management, including Enterprise Architecture, IT System Assessment and Evaluation, and have produced detailed metrics enabling the ability to recommend alternatives for improving quality, accuracy and efficiency at a lower cost. GCC's custom developed platforms have streamlined the process for federal clients and provide drilldown reporting capabilities. GCC's information technology support services have been implemented on various government contracts supporting federal clients including, Department of Education, Office of Federal Student Aid, Department of Veteran's Affairs and Department of Homeland Security.

Additionally, GCC has extensive experience in developing technical documents outlining the migration of a federal website to a Drupal-based platform. During this process, GCC assisted in the creation of the transition management plan, the User Interface design document, the user manual and the Disaster Recovery documentation.

Compliance review/Case management support

GCC's extensive background experience in compliance reviews and case management support provide federal clients such as, Department of Veteran Affairs, Small Business Administration and the Department of Education (Office of Federal Student Aid), the peace of mind by assuring specific agency regulations are met. GCC currently provides verification support services including processing applications, preparing paper and electronic files, entering applicant information into databases, assigning application risk ratings, making final recommendations for approvals, denials, or further examination of applications and call center support for applicants.
